Five Nations Health Protection Conference 2015

18-20 May 2015

Hilton Grosvenor Hotel, Edinburgh

The conference will address important public health issues that have arisen since the last meeting and provide fresh perspectives on established areas of disease prevention and control. Short papers on the themed sessions will also be presented by those actively working in Health Protection

Abstracts are welcome in all areas related to Health Protection including:

- Epidemiology
- Global Health (including Ebola Preparedness and Response)
- Public Health Microbiology
- Novel Surveillance Methods
- Immunisation
- Outbreak Management
- Radiation
- Chemical and Environmental Hazards
- Sexually Transmitted Diseases
